

## Advance Training Program

This is a series of an enhanced & intensive training program for more experienced traders and investors who have been engaged in trading the financial markets for a lengthy period of time. Likewise, it starts with a 60 hour (40/20) session up to 120-hours (60/40/20) schedule that emphasizes more on how effective MegaTrade101 trading and investing methodology still works in today's globally complex Foreign Exchange, Commodity & Equity markets.

Participating trainees who elects to continue will cover the list of topics below as an advance learning and real life trading application that has been the signature trading methodology of MegaTrade101.
